ELSEVIER

Journal of Hydrology 216 (1999) 310–311

Journal of Hydrology

Contents of Volume 216

Vol. 216 Nos. 1–2 MARCH 8 1999

Research Papers

The role of catchment hydrology in the characterization of water quality in glacial/boreal lakes
T. Thierfelder 1

Tidal effects on sea water intrusion in unconfined aquifers
B. Ataie-Ashtiani, R. E. Volker and D. A. Lockington 17

A non-linear rainfall–runoff model using an artificial neural network
N. Sajikumar and B. S. Thandaveswara 32

Runoff generation and re-distribution in logged eucalyptus forests, south-eastern Australia
J. Croke, P. Hairsine and P. Fogarty 56

A semianalytical approach to spatial averaging of hydraulic conductivity in heterogeneous aquifers
S. P. Pozdniakov and C.-F. Tsang 78

Evaluation of an empirical equation for annual evaporation using field observations and results from a biophysical model
B. J. Choudhury 99

A two-parameter monthly water balance model and its application
L. Xiong and S. Guo 111

The importance of spatial resolution in hydraulic models for floodplain environments
R. J. Hardy, P. D. Bates and M. G. Anderson 124

Technical note

Recording rainfall stratigraphy: a modified storage gauge for measuring rainfall events
E. J. Brown and W. E. Bardsley 137

Book reviews

Review contaminated land and groundwater: future directions, D.N. Lerner, N.R.G. Walton (Eds.)
Z. Gerstl 145

Water quality trends and geochemical mass balace
B. Reynolds 146

Vol. 216 Nos. 3–4 MARCH 22 1999

Research Papers

Study of the rainfall-runoff process in the Andes region using a continuous distributed model
I. Braud, P. Fernandez and F. Bouraoui 155

The use of alkalinity as a conservative tracer in a study of near-surface hydrologic change in tropical karst
D. G. Chandler and J. J. Bisogni Jr. 172

Hypothesis testing for long-term memory in hydrologic series
A. R. Rao and D. Bhattacharya 183

Groundwater resources and quality variations caused by gravel mining in coastal streams
J. Mas-Pla, J. Montaner and J. Solà 197

Ground heat flux estimated from surface soil temperature
J. Wang and R. L. Bras 214

Dam-break flow simulation: some results for one-dimensional models of real cases
P. Garcia-Navarro, A. Fras and I. Villanueva 227

Discussion

Similarity of kinematic and diffusive waves: a comment on accuracy criteria for linearised diffusion wave flood routing. By K. Bajracharya and D.A. Barry [Journal of Hydrology, vol. 195 (1997), 200–217]
R. Szymkiewicz 248
